Portfolio: ifaaaaz.github.io

PROFILE SUMMARY

Entry-level Cybersecurity professional with a B.Sc. in Computer Science and a Diploma in Cybersecurity, with hands-on experience in L1 SOC operations including continuous security monitoring, alert triage, and initial incident analysis. Skilled in Python scripting, Bash, Linux, and industry tools including Metasploit, Burp Suite, Nmap, Splunk, and Wazuh. Experienced in vulnerability assessment, SIEM-based threat detection, incident response, and web application security with strong practical knowledge of OWASP Top 10, MITRE ATT&CK framework, and ethical hacking fundamentals validated through hands-on labs and certifications. Seeking Junior SOC Analyst (L1), Penetration Tester, or Cybersecurity Analyst roles to contribute to protecting organizations against threats and strengthening security posture.

CYBERSECURITY PROJECT EXPERIENCE

Independent Cybersecurity Researcher | Self-Directed
January 2025 – Present

Wazuh SOC Lab

- Deployed Wazuh SIEM on Ubuntu and integrated a Windows 11 endpoint using the Wazuh agent
- Simulated reconnaissance and brute-force attacks using Nmap and Hydra from a Kali Linux VM
- Analyzed security events and investigated 16+ alerts related to scanning and authentication failures
- Applied MITRE ATT&CK mapping to understand attacker tactics and detection coverage

DVWA Vulnerability Assessment

- Performed security testing against DVWA across multiple security levels
- Exploited Command Injection, SQL Injection, and Reflected XSS vulnerabilities in a controlled lab environment
- Assessed vulnerability impact and documented remediation strategies aligned with OWASP Top 10 guidance
- Produced a professional vulnerability assessment report with supporting evidence

SME Penetration Testing Lab

- Conducted reconnaissance and service enumeration using Nmap and Nikto against a simulated SME environment
- Identified outdated Apache and OpenSSH services and researched associated vulnerabilities
- Demonstrated exploitation workflow using Metasploit and EternalBlue (CVE-2017-0144) in a controlled lab
- Delivered risk-rated findings and prioritized remediation recommendations

KEY SKILLS

Cybersecurity: Penetration Testing, Vulnerability Assessment, Ethical Hacking, Threat Detection, Incident Response, SOC Operations, Security Monitoring, MITRE ATT&CK, OWASP Top 10, Risk Management, Malware Analysis

SIEM & Monitoring: Splunk, Wazuh, Microsoft Sentinel, Log Analysis, Correlation Rules, Alert Triage, KQL

Penetration Testing Tools: Metasploit, Burp Suite, Nmap, Wireshark, SQLmap, Nikto, Hydra, John the Ripper, WPScan, OWASP ZAP, Enum4linux, Gobuster, Dirb

Networking: OSI & TCP/IP Models, IPv4/IPv6 Subnetting, Network Traffic Analysis, PCAP Analysis, Routers & Switches

Programming & Scripting: Python, Bash, HTML, CSS, JavaScript

Technical Environment: Kali Linux, Ubuntu, Windows, VirtualBox, Git, GitHub, Android Pentesting

Frameworks: MITRE ATT&CK, OWASP Top 10, OWASP Mobile Top 10, CVSS Scoring

CERTIFICATIONS

Certifications

- **Ethical Hacker** — Cisco Networking Academy | June 2026
- **Certified Red Team Operations Management (CRTOM)** — Red Team Leaders | December 2025
- **Linux & Web Bug Bounty Bootcamp** — CappricioSec University | March 2026
- **Ethical Hacking Essentials (EHE)** — EC-Council | October 2025
- **Foundations of Cybersecurity** — Google | August 2025
- **Introduction to Cybersecurity** — Cisco Networking Academy | July 2025
- **Cybersecurity Management Job Simulation** — ANZ & Forage | July 2025
- **Cybersecurity Fundamentals** — IBM SkillsBuild | June 2025

Training Completed

- **CEH Training** – EC-Council
- **CCNA Training** – Cisco

EDUCATION QUALIFICATION

DIPLOMA IN CYBERSECURITY

Blearn Academy, Bengaluru | 2025

B.SC. COMPUTER SCIENCE

MES College, Naravoor — Kannur University | 2021 – 2024
